DETAILED ACTION

Allowable Subject Matter

1. Claim 4 is allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding independent claim 4, the prior art of record neither shows or suggests an electron beam emitting apparatus comprising, in addition to other limitations of the claim, an electro-conductive plate disposed separately from an electrode opposed to a surface of a first plate, wherein the electro-conductive plate covers a projection area of the electrode onto the electroconductive plate and area extended from a distance of $0.83d$ from an outer periphery of the projection area outwardly, in any direction parallel with the first plate. .
3. The subject electroconductive plate, as described above, is provided for stabilizing the trajectories of the emitted electrons to thereby form an electron beam emitting apparatus with an excellent image without deviation of light-emitting positions. The design is new and unique to the art.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
